A GREENER FUTURE FOR MANUEL STREET

Have your say on a greener, safer Manuel Street and Sheppard Street intersection.

The intersection of Manuel Street and Sheppard Street in Hendon has been identified as an important opportunity to create a greener, more walkable neighbourhood. Proposed improvements focus on increasing tree canopy, expanding green space, and making it safer and more comfortable to walk through the area.

This project forms part of Your Neighbourhood Plan for Albert Park and Hendon, which sets out a shared vision for a greener, more liveable community.

Previous community feedback has shown strong support for:

- more greening and tree planting
- safer, more comfortable walking connections
- encouraging walking and active transport
- creating places that support social connection and a sense of place

We are exploring options to improve this intersection and would like your feedback on three proposed designs.

Option 1: Full road closure

- limits vehicle access to local traffic only and discourages cut-through movements
- greatly improves pedestrian safety and comfort
- creates the most space for greening and tree planting
- supports walking and cycling through direct, uninterrupted connections
- provides opportunities for accessible public space and future community use

Example only – Full road closure

Option 2: Partial road closure

- introduces one-way restrictions or directional closures
- increases green space and tree planting
- maintains local vehicle access while giving greater priority to walking and cycling
- improves pedestrian safety by reducing conflict points between vehicles and pedestrians

Example only – Partial road closure

Option 3: Driveway link

- limits vehicle access to local traffic only and discourages cut-through movements
- improves pedestrian safety by removing cross-traffic at the intersection
- creates a continuous green pedestrian corridor through the site
- increases green space and tree planting
- supports a more intuitive, pedestrian-friendly street layout

Example only – Driveway link

How to provide feedback

- Complete the online survey by scanning the QR code or visiting **yoursaycharlessturt.com.au/manuelsheppardintersection**
- Email your questions or comments to **engagement@charlessturt.sa.gov.au**
- Call **8408 1116** to request a hard copy survey.

Consultation closes at 5pm, Sunday 3 May 2026.

Following consultation, we will review all feedback and share outcomes and next steps on Your Say Charles Sturt. Follow the page the stay informed.
