

RECREATIONAL ROUTE

- Route Comments:**
- The route is being considered as an additional connection to the Grange Lakes corridor path
 - Route would upgrade existing "bike direct" route on Westmoreland Road
 - Provides an improved connection to Grange Primary School
 - Traffic volumes on Westmoreland Road are low enough for on-road bicycle markings but some traffic calming would be beneficial to reduce vehicle speeds in combination with the volumes
 - Shared use path option would be most likely on the south side

Westmoreland Road
 Daily Traffic Volume - 704 vehicles
 85th percentile speed - 47 km/h

Legend

	Train Station		On-road bicycle lane
	Train Line (Grange to City)		Shared use path
			Advisory bicycle markings
			Existing Grange Lakes Corridor Path
