

PROPOSED PUBLIC TOILET AND RESERVE UPGRADES CARNEGIE RESERVE

Following requests from local residents, we're seeking community feedback on a proposal to install public toilets at Carnegie Reserve.

While toilets are available at the soccer club, these can only be accessed when the clubrooms are open. New public toilets would provide visitors with more convenient access to facilities when enjoying the reserve. We're considering two potential locations and would like to hear your thoughts.

Option 1: Northern Location

A twin-cubicle public toilet is proposed, with an overall footprint of approximately 30m² and would include surrounding paths and landscaping.

Benefits

- A brief walk from the soccer club (approximately 260 metres)
- Centrally located to service a broad range of reserve users
- Convenient for soccer families, dog walkers and people using Carnegie Reserve North
- Easy access for cleaning and maintenance

Things to consider

- Further from the playground, tennis courts and basketball half-court
- Less convenient for people using the southern end of the reserve
- Would take up some existing green space

Option 2: Southern Location

A single-cubicle public toilet is proposed, with an overall footprint of approximately 23m² and would include surrounding paths and landscaping.

Benefits

- A short walk from the soccer club (approximately 160 metres)
- Convenient for families using the playground, tennis courts and basketball half-court
- Easy access for cleaning and maintenance

Things to consider

- Further from Carnegie Reserve North
- Less convenient for dog walkers and people using the northern end of the reserve
- Would take up some existing green space

See the enclosed concept plan for the two proposed locations.

Have Your Say

Do you support public toilets at Carnegie Reserve?
If so, where would you prefer them to be located?

Scan the QR code or visit
www.yoursaycharlessturt.com.au/carnegie-reserve to
complete our short survey.

Consultation closes 20 November 2026.

OTHER RESERVE UPGRADES

More improvements coming to Carnegie Reserve.

We're also delivering two upgrades to make Carnegie Reserve a more comfortable and welcoming place for the community.

New shelter and seating area

A new covered seating area is planned for 2026/27, providing a shaded space for visitors to sit, relax and enjoy the reserve.

Whether you're enjoying a picnic, watching the kids play or taking a break, the new shelter will provide a comfortable place to rest.

See the enclosed concept map for the planned location in Carnegie Reserve North.

Sports lighting upgrade

The sports lighting at Carnegie Reserve will be upgraded to improve visibility and safety, support club training and games, and make the reserve more welcoming for the community.

Works are expected to begin in early November 2026.
