FEEDBACK FORM: NEW BOWDEN & BROMPTON POCKET PARKS IN 2024/25

Please share your feedback with us before 17 March 2024. This form will only take 2-4 minutes to complete. By participating in this consultation, you will be notified of the consultation outcomes and future project updates. Details on how to lodge this form are available on the last page.

Please be assured that all feedback reported on is anonymous and will be unattributed in the community engagement and Council reporting. Staff will consider all feedback received and, while we generally don't respond to feedback directly, responses to feedback will be made available to you in the outcomes report, where applicable.

---

1. What is your general sentiment on the initial landscape design of the Chief Street, Brompton Pocket Park? Required

This project is initially to deliver a landscaped pocket park, only. We wish to understand, generally, if you support the plan. You can share further comments about the plans, as well as how you might like to use the space, in the coming questions.

Select <u>one</u> answer only
☐ I support the landscape design as presented.
☐ I support the landscape design subject to further considerations.
☐ I don't support the landscape design.

2. What is your general sentiment on the initial landscape design for the Drayton Street, Bowden Pocket Park? Required

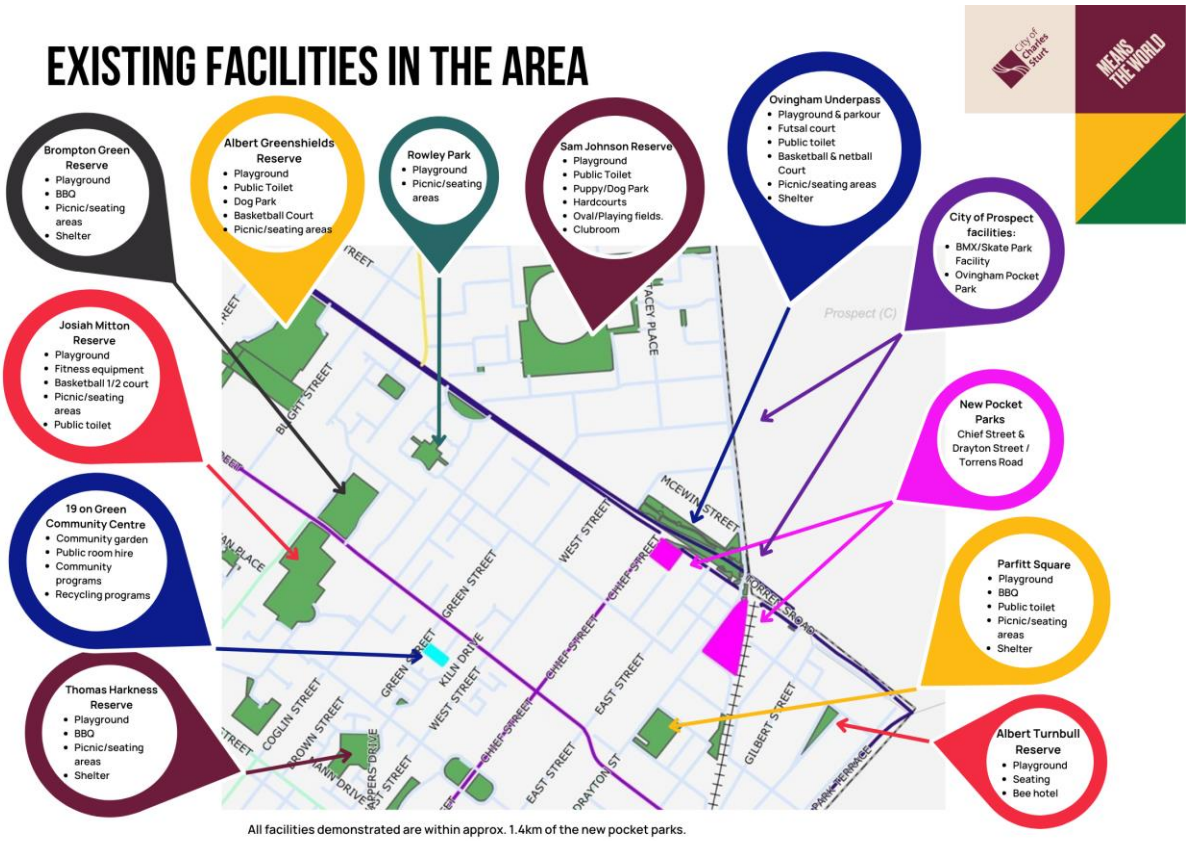

This project is initially to deliver a landscaped pocket park, only. We wish to understand, generally, if you support the plan. You can share further comments about the plans, as well as how you might like to use the space, in the coming questions.

Select <u>one</u> answer only
☐ I support the landscape design as presented.
☐ I support the landscape design subject to further considerations.
☐ I don't support the landscape design.

3. **Please share any feedback or general comments about the landscaping plans, for each site.**

Some examples of features we can consider feedback on include the planting of vegetation, public art, seating and shelter/natural shade, possibilities for future community use, planter boxes for public use, lighting and similar. Please note that we don't wish to duplicate features that are already available nearby. The map below demonstrates facilities that exist nearby to both, new pocket parks.

4. **Please share with us how you might like to use each space and any future opportunities you would like us to consider at either or both parks.**

Please be aware the due to the size of the Chief Street Pocket Park, this space is ideally suited to being an open & shaded recreational space. Drayton Street Pocket Park, as the larger site and with access to power, has greater potential to be considered for other uses. Ideas will be assessed against several factors such as merit, demand, cost, policy and strategic direction, etc. If supported in principle, provision will be made in the final park designs and will be subject to future Council and funding approval.

5. **Do you have any suggestions or considerations about the future naming of each pocket park?**

In naming parks and reserves we consider recognising individuals, Indigenous history and culture, and the local character, landscape, function or history of the area or the site. Please refer to our 'Reserve Naming Policy' for more information. We will consider all suggestions and consider the naming of the parks when we consult on a Draft Community Land Management Plan in the future.

6. **Do you have any other general comments to share about the pocket park designs or the project in general?**

YOUR DETAILS

We request your details so that we can keep you up to date on the outcome of this project as a consultation participant. We will only otherwise contact you if we need to clarify your response.

---

1. First Name Required

2. Last Name Required

3. Your preferred email

This is so that we can let you know the outcomes of consultation and keep you updated on this project.

4. Your Street Address Required

5. Suburb Required

6. Postcode Required

Maximum of 4 characters

7. Preferred contact number

To submit your completed feedback form, please:

- Email this form to osrp-consultation@charlessturt.sa.gov.au; **OR**
- Post to - City of Charles Sturt, ATT: OSRP Engagement, PO Box 1, Woodville SA 5011.

Thank you for taking the time to share your feedback on this exciting project to deliver green, open space back to the community.
