

Local Neighbourhood Our Transforming City

CONCEPT PLAN
FROGMORE ROAD, KIDMAN PARK

Since May 2026, we've been gathering community feedback and exploring options to improve accessibility, safety and amenity on Frogmore Road.

What we heard

- Safer walking and cycling connections to Linear Park and the local shops.
- Improved road and footpath conditions.
- Retaining established trees and increasing shade and greenery.
- Improved parking and access around the local shops.
- Addressing vehicle speeds and improving road safety.

What we're proposing

In response to community feedback and further investigation, we're proposing to:

- Road renewal and drainage: Renew the road between Valletta Road and Linear Park.
- Walking and cycling connections: Provide a continuous 2–2.5-metre-wide path along the eastern side of Frogmore Road.
- Local centre improvements: Introduce angled parking alongside Valletta Reserve and a raised pedestrian crossing. The angled parking offsets spaces removed for safe crossing visibility.
- Road safety: Tighten intersection corners at Festival Crescent and Elm Street.
- Tree protection and greening: Retain established trees where possible, with additional planting.

We want to hear from you

We're now seeking feedback on the proposed concept before progressing to detailed design. Your input will help us refine the project and ensure the final design reflects the needs of the local.

To provide feedback you can:

- Complete an online form at **www.yoursaycharlessturt.com.au/frogmoreroad**
- Call us on **8408 1357** to have your feedback taken over the phone.
- Email us at **engagement@charlessturt.sa.gov.au**.

Following consultation, we will provide an update about the project's next steps via Your Say. Follow the page to stay updated.

Consultation closes Monday 14 December 2026.
